Amigos de Guadalupe is a local organization focusing on education and empowerment of children and families. One of Amigos' core beliefs is that "education is our right and the great equalizer, empowering our children and families to access lifelong opportunities." Amigos' approach is unique among agencies helping unhoused families. Families are supported by caring staff and caseworkers to help them achieve their goals.

With a strong focus on education Amigos offers after school programs, summer camps, scholarships and mentorship opportunities.

This program will highlight the various programs and services offered by Amigos de Guadalupe.
